

**No Limit®**  
Permanent Odor Eliminator

## PRODUCT DATA SHEET

### Love Your Pets, Not Their Odors

If you've got pets, you've got odors. Stinky things are just attracted to them. They roll in stuff that may or may not be alive. They have accidents and get sick. They get wet, and wet pets smell *really* bad. That's why we created **B.F.F. No Limit®**: to eliminate foul pet odors.

### Blinding You with Science

No Limit bonds to and permanently alters stinky molecules, eliminating odors forever. It destroys the most offensive animal odors: vomit, feces, urine, smelly litterboxes, wet coats and even *skunk*. It also helps keep your home cleaner, longer because it contains properties that encapsulate existing soil to be vacuumed away, and *repel* future soil from ever accumulating.

### People, Animal, Planet & Couch Safe

No Limit is completely user safe, nontoxic and biodegradable, and the fragrance-free formula makes it an ideal solution for sensitive people. Fragrances and dyes leave sticky residues that actually attract dirt and more odors! So we don't add them.

No Limit is safe to use on carpets, water-safe upholstery, drapes, linens and clothing. It can even be used in the washing machine! We promise to help with your odor problem—whatever or wherever it is—**or your money back.**

### For More Information
